IN THE SPECIFICATION

At page 1, line 3, please insert the following:

-- This application is a Continuation of U.S. Patent Application No. 09/003,732 entitled "AUTOMATIC TRANSFER OF IMAGE INFORMATION BETWEEN IMAGING DEVICE AND HOST SYSTEM", filed on January 7, 1998, the disclosure of which is incorporated herein by reference.--

IN THE CLAIMS

Cancel claims 1-14 without prejudice. Please add the following new claims 15-18.

15. (New) A method for transferring image information between an imaging device and a host system, said method comprising:

the host system detecting a coupling of the imaging device to the host system; in response to detecting the coupling, said host system automatically requesting image information transfer from the imaging device; and

in response to the request, said image information is transferred from the imaging device to the host system.

- 16. (New) The method as set forth in claim 15, wherein the host system detects the coupling of the image device if the imaging device is connected to a port of the host system.
- 17. (New) A system to receive image information from an imaging device comprising:
- a processor;
- 4 an input port; and
 - a detection circuit, said detection circuit detecting the coupling of the imaging device to the input port, and wherein said processor automatically requesting the image information to be transferred from the imaging device in response to detecting the coupling of the image device to the input port by the detection circuit.

18. (New) A computer readable medium comprising instructions, which when executed by a processing system to perform an operation of transferring image information between a host system and an imaging device, the operation comprising:

the host system detecting a coupling of the imaging device to the host system; in response to detecting the coupling, said host system automatically requesting image information from the imaging device; and in response to the request, said image information is received from the imaging device to the host system.

REMARKS

Reconsideration of this application, as amended, is respectfully requested.

Claims 1-14 have been canceled without prejudice. New claims 15-18 have been added.

Applicant respectfully submits that no new matter has been introduced by new claims 15-18.

If the Examiner believes a telephone interview would expedite the prosecution of this application, the Examiner is invited to call Mike Kim at (408) 947-8200 x212.
